The dam of 261/4 was also a successful show cow, taking Reserve Grand Champion honors at the Brazos Valley Fair. 261/4 was one of the only females her age in our heifer development program, so she got pushed into the group with these younger heifers and has never been exposed. If you're looking for one that's going to be a big, beautiful mature cow, this one is your girl. This comes as no surprise, as she is sired by LB Mr CR Earle Manso 214/5, a top +JDH Elmo Manso son who was the Calf Champion at the 2018 All American. **LOT 12: BCC Mr Titan 201/2 (ABBA #[1091951](#))**  
**DOB: 8/18/22                      CONSIGNED BY: BENTKE CATTLE COMPANY**

**SIRE: Mr V8 606/7**

**DAM: Miss V8 404/7**

It's not everyday that a mature herd sire prospect ready to cover a lot of cows is available, not to mention one of this elite quality. I may be a little biased, but this could be one of the best Brahman bulls to sell at public auction this year. He was held back to replace aging bulls in the Bentke Cattle Company herd, but those bulls are still producing, so Titan hasn't been used yet. This calm, gentle bull sells as a virgin 3 year old. Titan is out of the impressive donor Miss V8 404/7, selling as lot 14 in this sale. His sire is Mr. V8 606/7, a promising young bull who's early death resulted in limited semen ever being available. You may know his flushmate better, Mr. V8 604/7, an international champion and outstanding sire for V8 ranch. Combining these 2 on paper results in a pedigree that includes +Mr. V8 191/7, +JDH Sir Avery, +Miss V8 464/6, +Mr. V8 380/6, \$Miss V8 910/4, +Miss V8 410/6, and a double shot of (+)JDH Karu Manso 800. As no surprise based on his pedigree, Titan is phenotypically superior, being large statured, big topped,

balanced from the profile, big middled and overall striking in appearance. He stands on a big set of feet and legs. Titan is a true curve bender with an actual birthweight of 68 pounds, and now weighing in at well over 2000. With his great dark pigment, you can use him on red or gray Brahmans, or his extra pigment will do well on Hereford or Angus cows too. Look for Titan to make a difference in your herd!

**LOT 12A: Magic Murphy 601/3 (ABBA #[1066610](#))**

**DOB: 4/21/23**

**CONSIGNED BY: BENTKE CATTLE COMPANY**

**SIRE: +Mr V8 322/8**

**DAM: Lady H Rhianna Manso 357/3**

Magic Murphy has about as good of a pedigree as you can put on paper in the Brahman world. His sire is +Mr. V8 322/8, a past National Champion +V8 380/6 son whose semen sells for \$10,000/straw and has already produced many outstanding progeny, including Miss V8 472/9 "Magic" who sold 1/2 interest for \$150,000. Magic Ranch was able to produce this genetic gold mine by purchasing an aspiration on a donor from the Bentke's, Lady H Rhianna Manso 357/3. Rhianna is a full sibling to +Mr. H Pride of Maddox 684/8 who is one of the most notable sires in the breed whose semen has also risen to a valuation of \$10,000/straw based on his progeny's success. Rhianna is currently producing outstanding, high growth, eye-appealing offspring that are excelling across the country. Murphy is a very attractively designed bull that has a lot of growth and performance, backed up by his adjusted weaning weight of 663 pounds with a modest 81 pound birthweight.

**LOT 13: BCC Mr Smokin Houdini 265/4 (ABBA #[1076865](#))**

**DOB: 1/5/24**

**CONSIGNED BY: BENTKE CATTLE COMPANY**

**SIRE: +TJF Mr Smokin Gun 109/7**

**DAM: +Lady H Emma Manso 288/2**

BCC Mr. Smokin Houdini 265/4 offers an exciting opportunity to acquire a true herd builder for both red and grey breeders. Houdini is one of the few direct sons by +Lady H Emma Manso 288/2, a legendary cow in the Brahman breed who has produced an International Champion, National Champion, and numerous other winners at the highest levels of competition, resulting in her being propelled to the probable #1 ranking for Grey Brahman females in the register of renown. Yes, you are reading that pedigree right - we flushed +Emma to the one and only +TJF Smokin Gun! +Smokin Gun is the most prominent red sire of modern times, with the value of his semen reaching over \$20,000/straw based on the superiority of his offspring. Houdini was shown on a limited basis as a calf, winning his class multiple times and being named Reserve Calf Champion at the 2024 ABBA Fall Classic Open Brahman Show. Houdini is square made, big topped, bold ribbed, moderate framed and stylish in the way he is designed. This is one that's hard to see go!

**DOB: 5/16/10**

**CONSIGNED BY: BENTKE CATTLE COMPANY**

**SIRE: +Mr V8 901/4**

**DAM: +Miss V8 410/6**

We're taking the sale in a little different direction with these next 2 lots - here you'll have an opportunity to take home a PROVEN donor with pedigrees that just aren't available anymore. First up is Miss V8 404/7, a DIRECT DAUGHTER of +Miss V8 410/6, one of the most famous cows in the history of V8 Ranch, known for her cover photo for the Brahman Journal that is considered to be one of the most ideal Brahman cows you can make. +410/6 has made a lasting impact on the Brahman world with 63 registered offspring including numerous show winners, donors, and AI sires. 404/7's sire is none other than +Mr. V8 901/4, a past International Champion who is known for siring consistently good cattle that are easy fleshing, eye appealing, structurally correct, and mate well with various sire lines. Phenotypically, 404/7 resembles her mother greatly in the look from the profile and the size and stature that she has. You may be asking, why is she selling? Well, we've frozen a good bank of embryos on her and we've been blessed to have produced some tremendous females over the last 5 years that we've kept breeding interests in and the donor pen has become crowded. We felt that although these cows have some age, there's still significant value in them and they can provide the base for someone's herd for generations with a few strategic mating decisions, just as she has for Bentke Cattle. 404/7 has been aspirated 4 times, averaging 44 oocytes and 10 grade 1 & 2 embryos per aspiration. She is currently open and ready to aspirate. Stellar pedigree. Elite phenotype. Proven production, with 3 offspring in this sale (lots 3,4,12) and a heifer by +BRC Noble that we don't plan to let go of. On top of this, we will GUARANTEE these cows to produce embryos via IVF. Take advantage of these once in a lifetime opportunities to acquire these genetics. Bentke Cattle will retain a multiple ownership status with ABBA to register calves from previously frozen embryos, buyer will have full possession and all future breeding rights.

**LOTS 57 - 73 & 75-94   PUREBRED RED ANGUS FEMALES**  
**CONSIGNED BY: BYRON VASSBERG**

Here is an opportunity to be on the cutting edge of something really exciting in the cattle industry. These purebred 2-3 year old red Angus females are all bred from 2 to 6 mos. This will be their second calf and females like these are hard to find. The real unique aspect of this offering is that they are bred to a registered Senepol bull or a registered Senepol x Red Angus bull. This cross is really gaining momentum in the industry for very good reasons. These Senepol and Senepol Red Angus crosses have some great attributes. The advantages of Senepol are bred in - Bos Taurus - red color - heat tolerant - moderate size - docile - maternal ability - calving ease - fertility - hybrid vigor and carcass quality. In addition to all of that the two bulls used to breed these cows are DNA verified carriers of the slick hair gene. These cattle will be sorted in uniform groups of 3-5 head.
